

Schedule of 12/13 (Thu)

10:30-11:00 coffee break

Chair: Masato Minamitsuji

11:00-11:40 S. M. Sibiryakov (30min+10min)

Testing Lorentz invariance of dark matter

11:40-12:20 L. Albion (30min+10min)

Nonperturbative instabilities in monodromy inflation

12:30-13:30 lunch

Chair: Daisuke Yamauchi

13:30-14:10 J. Meyers (30min+10min)

[Adiabatic Limit and Fate of Non-Gaussianity](#)

14:10-14:50 A. Naruko (30min+10min)

Second order Boltzman equation : gauge dependence and gauge invariance

15:00-15:30 coffee break

Chair: Antonino Flachi

15:30-16:10 S. Mizuno (30min+10min)

Influence of heavy modes on perturbations in multiple field inflation

16:10-16:50 G. D'Amico (30min+10min)

Unwinding Inflation

16:50-17:30 Y. Gusev (30min+10min)

TBA

18:30-20:30 Social gathering @clock tower
