Curriculum Vitae

Ken Shiozaki

Assistant Professor

Yukawa Institute of Theoretical Physics, Kyoto University, Kitashirakawa Oiwakecho, Sakyo-ku, Kyoto 606-8502 Japan

Email: ken.shiozaki@yukawa.kyoto-u.ac.jp

Website: https://www2.yukawa.kyoto-u.ac.jp/~ken.shiozaki/

Google Scholar: https://scholar.google.co.jp/citations?user=mbTEhB4AAAAJ&hl=ja

Google Scholar metrics: 7701 citations; h-index 33; i10-index 45 (accessed July 2026).

Professional appointments

- **September 2018** – present, Assistant Professor, Yukawa Institute for Theoretical Physics, Kyoto University.
- **October 2018 – March 2022**, JST PRESTO Researcher.
- **April 2017 – August 2018**, Special Postdoctoral Research Associate, Condensed Matter Theory Laboratory and Quantum Matter Theory Research Team, RIKEN.
- **April 2015 – March 2017**, JSPS Postdoctoral Fellow for Research Abroad, University of Illinois Urbana-Champaign.

Education

- **March 2015**, Ph.D., Department of Physics I, Kyoto University. Thesis Title: Topological insulators and superconductors: classification of topological crystalline phases and axion phenomena. Thesis Adviser: Norio Kawakami.

- **March 2012**, M.S., Department of Physics I, Kyoto University. Adviser: Satoshi Fujimoto.

- **March 2010**, B.S., Department of Physics I, Kyoto University.

Honors and Awards

- **March 2018**, The 12th Young Scientist Award of the Physical Society of Japan.

- **December 2020**, The 35th Nishinomiya Yukawa Memorial Award.

- **April 2026,** The Young Scientists' Award, The Commendation for Science and Technology by the Minister of Education, Culture, Sports, Science and Technology, MEXT, Japan, 2026.

Grants and Funding

- Principal Investigator, JSPS Grant-in-Aid for Scientific Research (B), "Extension of Geometric Physical Quantities in Quantum Many-Body Systems: Higher Berry Curvature, Topological Order, and Open Systems", April 2026 – March 2029, ¥18,330,000 (Direct Cost: ¥14,100,000; Indirect Cost: ¥4,230,000). Link: KAKEN Project 26K00629.

- Principal Investigator, JSPS Grant-in-Aid for Transformative Research Areas (A) (Publicly Offered Research), "Classification of Topological Phases Using Spectral Sequences and Materials-Design Applications of Geometric Physical Quantities", April 2026 – March 2028, ¥3,120,000 (Direct Cost: ¥2,400,000; Indirect Cost: ¥720,000). Link: KAKEN Project 26H01305.

- Principal Investigator, JSPS Grant-in-Aid for Scientific Research (B), "Study of higher homotopy of phase space and geometric physical quantities in quantum many-body systems", April 2023 – March 2026, ¥18,720,000 (Direct Cost: ¥14,400,000; Indirect Cost: ¥4,320,000). Link: KAKEN Project 23H01097.

- Co-Investigator (PI: Kenji Fukushima), JSPS Grant-in-Aid for Transformative Research Areas (A) "Topological approaches to machine learning", June 2022 – March 2027, Link: KAKEN Project 22H05118.

- Principal Investigator, Kyoto University Foundation Research Activity Promotion Grant, "Study of higher homotopy of phase space and geometric physical quantities in quantum many-body systems," FY2022, ¥600,000. Link: https://www.kyodai-zaidan.or.jp/result/r4/

- Principal Investigator, JST PRESTO (Sakigake), Research Area "Topological Materials Science for Creation of Innovative Functions," "Construction of topological materials science based on generalized cohomology theory," October 2018 – March 2022, ¥30,000,000. Link: JST Project JPMJPR18L4.

- JSPS Research Fellowship for Young Scientists (DC2), Japan Society for the Promotion of Science, April 2013 – March 2015, ¥2,000,000 (Direct Cost: ¥2,000,000), Link: KAKEN Project 13J00815.

Contributions to University/Institution Operations

- **Apr. 2019 – present**: Member, Colloquium/Seminar Committee, Yukawa Institute for Theoretical Physics, Kyoto University. link

- **Aug. 2021 – Jul. 2023**: Member, Joint-Use Management Committee, Yukawa Institute for Theoretical Physics, Kyoto University. link

Professional Service (Committee Memberships)

- **Apr. 2021 – Mar. 2023**, Secretary and Journal Editor, Physical Society of Japan (Kyoto Branch).

- **Apr. 2020 – Mar. 2021**, Area Committee Member (Area 4: Semiconductors, Mesoscopic Systems and Quantum Transport), Physical Society of Japan.
