Title of Paper
Author(s)
Manuscript No. or Tentative Reference No.

A. Copyright Transfer: Copyright of this paper is hereby transferred to the publication office of Progress of Theoretical Physics (PTP) at the time that it is accepted for publication in the journal in any form. PTP shall have the right to publish this paper using any medium, or by any means not presently known or developed. Papers will be published only if the author(s) agrees to these conditions.

Signature of (one of) the author(s)

Date

B. Publication fee: The special waiver of the publication fee for manuscripts submitted as L^AT_EX files in P^TP_TE_X format has been resumed from April 1st, 2010.

Despite this special offer, we will gratefully accept the publication fee from authors who wish to support PTP financially. Also, authors paying no publication fee who wish for PTP to handle the proofreading of their manuscript will be charged a fee for this service. In the case that the publication fee is paid, the authors are exempted from the reprint fee for 50 copies, conversion fee and proofreading fee (see formulas below to determine these fees). The publication fee is equal to the reprint fee for 50 copies. In the case that more than 100 copies are ordered, an additional fee is charged.

Please indicate your choice regarding the publication fee (noting that if you wish to order reprints, you must choose 1):

1. We will pay the publication fee.

2. We do not pay the publication fee.

C. Reprint fee: The fee for reprints is determined as $3,000p + 200p \times (x/50) + 1,000$ yen, where x is the number of reprints ordered (in units of 50) and 1,000 yen is the shipping cost, applying only if the reprints are to be sent to an address outside of Japan.

D. Conversion fee: Manuscripts accepted for publication that have been submitted in forms other than P^TP_TE_X (L^AT_EX, plain TeX, Word, etc.) will be converted into P^TP_TE_X by the PTP Office for the following fees at the author's request (reprint fee not included):

L^AT_EX, plain T_EX : $2,000 \times p$ yen,

Word (or other non-T_EX file): $4,000 \times p$ yen.

(Here, p represents the total number of printed pages of the manuscript in P^TP_TE_X format.)

E. Proofreading fee: 1,000 yen/printed page. With the author's approval, the English of the accepted paper will be checked by a professional reviser. We request that the author pay a part of the proofreading cost.

Please indicate your choice regarding revision by checking the appropriate box below.

1. Proofreading requested

2. Proofreading not requested

* For all the above fees, in the case that payment is made from within Japan, the appropriate consumption tax is added.

We accept the conditions stated from B to E for the publication in PTP of the paper whose title appears above.
