*** About "ss24_UTF-8_english.sty" ***
```
----------------------------------------------------------------------
------------
```
Please put the main TeX document and "ss24_UTF-8_english.sty" at the
same directory.
Please do not edit "ss24_UTF-8_english.sty",
and do not change the entire layout such as header and footer.

We prepared the packages below in "ss24_UTF-8_english.sty":
\usepackage{amsmath, amssymb, amsthm, bm}
If you need any other packages (graphicx, natbib etc...), please write them in the main TeX document.

*** About "latexmkrc" ***

When you want to compile Japanese environment (i.e., pLaTex) in Overleaf,
you need to place latexmkrc file in the same directory where ss24_sample_UTF-8(_engilish) folder locates. (That means, you need to move latexmkrc files yourself.)

Please see the official Overleaf HP for details.
https://www.overleaf.com/learn/latex/Questions/Does_Overleaf_support_pTeX%3F

*** How to write the proceedings? ***
