Some remarks to be given:

Ladies and gentlemen, distinguished guests:

It is my greatest honor to be invited by Her Majesty's Government of the United Kingdom to visit.

I visited your country twice in the past, but even the latest one was almost 20 years ago.

For during these years, a boy grows to an adult.

Nuclear power development of Japan has been started by introduction of UK technology, and it lead us to become one of the leading nuclear power countries of the world. during the past 20-30 years
This time I came to your country to know more about your culture and society. Nuclear power affairs are not my primary purpose of my present visit.

Cultural intercultural communication is the best bridge between our two countries. I would like to enjoy the social life of Far East country as a visitor from the Far East.

Thank you.
