

It is indeed a great privilege and pleasure for me to ~~say~~ be asked to say a few words of gratitude on behalf of physicists coming from abroad. Theoretical physics has become an international undertaking in every sense of the word. It is ~~not going to be~~ more and more important task

~~to~~ for a physicist to participate in ~~an~~ ^{as well as a} ~~privilege~~ international conferences. Nowadays, it is impossible for us to look through scientific journals. They are getting to be thicker and thicker. There are too many interesting papers. ~~We cannot~~ ^{It is hard to} decide which to read. We are ~~not~~ ^{just} embarrassed because ~~the papers which may be relevant.~~ we cannot read ~~them~~ all. The only way out of this ~~situation~~ ^{trouble} is to meet physicists themselves and find out the essential ^{what about is} of ~~their works~~ ^{going on in various parts of the world} to be informed of ~~points~~ that the Univ.

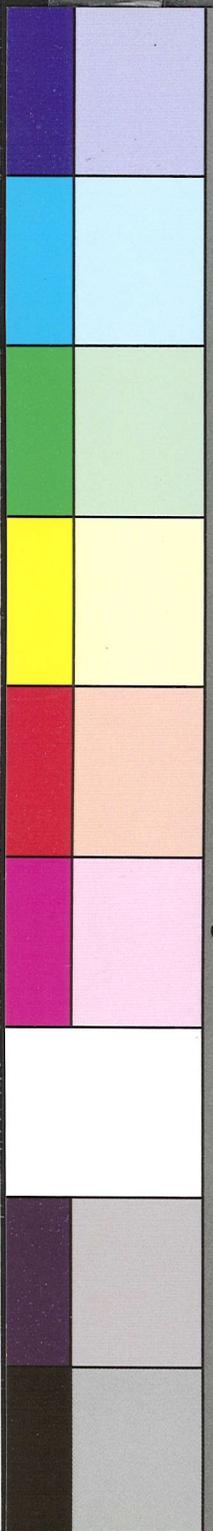

We are really very grateful that the Univ. Advisory Committee ~~of the Congress and~~ ^{of Washington} ~~to~~ ^{made} ~~great~~ ^{effort} ~~trouble~~ ^{to} ~~invite~~ ^{for} ~~many~~ ^{of} ~~theoretical~~ ^{physicists} from abroad. I was surprised that the Congress was so well prepared and organized, because we had ~~the~~ ^{similar} experience of in

1953) ^{when an International Physics Congress was held in Japan.} We know how difficult it is. Since I came here, I was impressed by the fact that not only the physicists were thoughtful ~~and friendly~~ to us, not only the scenery was ~~so~~ beautiful than ~~we~~ ^{even more} we expected, but also the people of the town were all very beautiful ~~friend~~ ^{friendly} to us.

I am sure that the Congress will be a great success ~~both~~ in every respect. I would like to ^{say many thanks} ~~say~~ ~~thanks~~ ~~to the~~ ~~local members and local members~~ ~~and to all the American physicists~~ all who took great care in organizing this conference.

Sept 21, Friday
Dinner

Speech:

I am sure that you are not in a mood to listen to my speech any longer after so many talks during the whole week, but this is perhaps the last chance for me to express ~~all our deep~~ our deep felt feeling of gratitude on behalf of all the physicists came from abroad to the President of the University, Prof. Marley, Prof. Uhling,
