April 11, 1958

Dear *Yukawa,*

On behalf of the Continuing Committee, I have pleasure in sending you the documents relating to the Second Pugwash Conference which has just ended at Lac Beauport.

When a letter of invitation was sent to you by Lord Russell, you expressed an interest in this Conference. Although you were unable to attend, I believe that you would wish to know what has transpired at this meeting.

May I point out that the enclosed "Minutes of the Meetings" are not minutes in the true sense of the word. They are only rough notes taken during the meetings and are meant to give a general impression of the proceedings; they have not been checked or corrected by the participants.

The Conference decided that all documents, except the statement to the Press, should be treated as confidential. You are at liberty to show them to anyone who is interested, as long as it is made clear that they are not for publication.

If you have any enquiries or comments I will be glad if you would write to me at:

Physics Department
St. Bartholomew's Hospital
Medical College
Charterhouse Square
London E.C. 1
England

Yours sincerely

J. Rotblat
