15th September, 1960.

Dear Professor Yukawa,

The Pugwash Committee were very sorry to hear that owing to your state of health you would not be able to attend the Pugwash Conference in Moscow. This Conference, which was originally scheduled for September 11th - 18th, will now be held from November 27th - December 5th. We are very anxious that there should be a Japanese representation and we agreed that a letter should go to the President of the Japanese Council of Science, asking him to nominate such a scientist. I enclose a letter from Lord Russell, and would be most grateful if you would forward it to the President with, perhaps, a letter of support from you.

Yours sincerely,

Professor H. Yukawa,
Director,
Research Institute for Fundamental
Physics,
Tokyo University,
Tokyo,
Japan.

15th September, 1960

Dear Mr. President,

I am writing as Chairman of the Pugwash Continuing Committee to invite several Japanese scientists to participate in the Conference on 'Disarmament and World Security' to be held in Moscow from November 27th to December 5th.

At previous Pugwash Conferences eminent Japanese scientists took part and you will probably know from them that these informal meetings are of great value, not only as a means of exchange of opinion between scientists, but also in providing new ideas for the solution of the most vexing problems of the day. A programme for the Conference is enclosed.

I should be very glad if you would let me know, as soon as possible, the names of Japanese scientists who would be able to attend. Further details about the arrangements will be forwarded as soon as your reply is received.

Yours sincerely,

/s/

The President,
Science Council of Japan,
Tokyo,
Japan.
