1st January 1974

To: Chairmen and Secretaries of National Pugwash Groups

This is a reminder, to those of you who have not already done so, that I need the names of your nominees to invite to this year's Baden Conference (as requested in my memorandum of 26 September). I plan to send out the first set of invitations early in February.

Re : Pugwash Symposium on "Science and Ethics", 16-20 December, 1974,  
Dubrovnik, Yugoslavia.

Enclosed are the agreed agenda for this Symposium, a background paper, and a list of suggested possible participants. As we intend to limit the number of participants from outside Yugoslavia to around 20 (and hope to obtain papers in advance from all of them) it is clear that the list as it now stands is too large; furthermore, it lacks adequate representation from East Europe, Asia, Africa and Latin America.

I would therefore appreciate it if all of you would review this list and then inform me of your own suggestions (either from among those listed or additional) for possible invitees. If you could also ascertain whether the proposed participants are interested and willing to prepare a paper (by, say, September 1974) that would be very useful in enabling the organizers and me to arrive at a final priority of invitations.

Greetings of the season.
