Dear Professor Fujioka,

Thank you for your letter and for sending me the
photographs.

I had already received a copy of your statement of
acceptances from Fleury.

If you wish me to give a lecture during the main
session, I would like its title to be "Dislocations and
the Properties of Solids". A lot of rather spectacular
work has been done in this field recently which I could
illustrate with lantern slides.

We are all much looking forward to the journey to
Japan.

Yours sincerely,
