Dear Professor Kameyama,

I have to thank you very much for your letter of 14 November 1952 with its kind invitation to Dr. Torres Bodet to attend the International Conference on Theoretical Physics to be held in Japan in 1953.

As you know, Dr. Torres Bodet has resigned from Unesco and, although it would have given me personally great pleasure to attend this important scientific event, I am afraid it is not possible for me to undertake any commitments in far away countries during the coming year. I should however be most interested in receiving reports on the work of the Conference.

With my best wishes for its success,

Yours sincerely,

/s/
