DEPARTMENT OF PHYSICS  
URBANA

November 24, 1952

Professor Naoto Kameyama, President  
Science Council of Japan  
Ueno Park  
Tokyo, JAPAN

Dear Professor Kameyama:

My distinguished colleague, Professor John Bardeen, who is internationally famous for his many contributions, both pure and applied, in the field of the physics of the solid state, is much interested in attending the International Conference on Theoretical Physics to be held in Kyoto and Tokyo in September 1953. At Professor Slater's suggestion I am writing to you to ask if it would be possible for him to receive an invitation to attend this meeting. As you may understand it is very difficult to obtain aid in defraying the cost of the journey unless one has an invitation to attend.

Both Professor Bardeen and I would be very grateful to you for any consideration you can give to this matter.

Sincerely yours,

/s/

Frederick Seitz
