

March 9, 1950

Miss Rose Russell  
Teachers Union  
206 West 15 Street  
New York 11, N. Y.

Dear Miss Russell:

In answer to your telegraphed request, I am pleased to send the following message to the Teachers Union which is honoring Dr. Albert Einstein at its 14th Annual Educational Conference on March 11:

"It is a great honor for me to send this message on the occasion of the 14th Annual Educational Conference of the Teachers Union which is honoring Dr. Albert Einstein. My admiration for Dr. Einstein as a great scientist began in 1922 in my student days when he visited Japan. As I came to know him over the years and particularly as a result of our personal association in Princeton, New Jersey last year, I have learned to regard him not only as a great scientist but also as a great humanitarian. I have discovered that he has proved to mankind not only the existence of harmony between Nature and Humanity but particularly the inseparability of Beauty and Truth. May I add my sincere wishes to those already expressed, in honoring Dr. Einstein and praying that he may continue for many years to inspire us in scientific research as well as in the cause of education for peace and freedom."

Sincerely yours,

Hideki Yukawa
