

YHAL
ON BOARD COR39E-27

Yamkuni-MARU
Bergen, Norway
Sept. 2.

Dear Professor Boler,

I had started on journey from Japan to Europe on 30 June in order to attend the International Meeting in Zurich, the Meeting of Deutsche Physikalische Gesellschaft in Marienbad and the Solvay Congress. I have been staying in Berlin, waiting for the day, when I shall have the honour of seeing you in Zurich, until the situation in Europe has become serious. Now I am in the port of Bergen on board M.S. Yamkuni-Maru, ^{according to the advice of Jap. Cons.} If the situation becomes better, our ship will sail back

Printed in Japan

to Hamburg. If this were not the case
unfortunately, our ship will sail to
Japan, so that, to my regret, it will
be difficult for me to have the honor
of seeing you in near future. Even
in this case, however, it may be possible
for me to attend the Solvay Congress, if
I can land at New York.

I am very sorry that I cannot visit
Copenhagen while the ship is in port of
Bergen, because we are not certain when
the ship sails out.

Hoping that peace continues to reign
over Europe, I remain always

Yours obediently,

H. Yukawa
