Department of Physics
Faculty of Science
Kyoto Imperial University
Kyoto, Japan, Nov. 15.

Dear Professor Dr. Debye,

I received your letter with great pleasure. I apologize for my delay in answering. I have been staying in Berlin for a short time in August, but, to my regret, I had to leave your country before I could have the honour of seeing you. I returned to Japan only very recently through America.

I accept willingly your proposal of publishing in the esteemed journal "Phys. Zeits." the manuscript of my lecture, which was to be delivered at Marienbad. I intend, however, to rewrite it so as to be more up to date and it will probably finished towards the end of this month. So asking you for a brief delay, I remain always,

in sending the manuscript

Yours very truly,

Hideki Yukawa.

H. Yukawa
