Dear Professor Yukawa:

Many thanks for the handsome fans which you sent to Mrs. Van Vleck and myself as a memorabile of your visit in Cambridge. They will serve both as something to show that you were here in person and to illustrate some aspects of Japanese art.

I trust that you have a pleasant trip back to Japan, and that the Pacific has escaped the storms which have recently been working such havoc in the Atlantic.

Sincerely yours,

J. H. Van Vleck
