Professor H. Yukawa  
Faculty of Science  
Kyoto Imperial University  
Kyoto, Japan

Dear Professor Yukawa:

Thank you very much for your letter. After we sent in our manuscript, we saw the paper by Messrs. Kobayasi and Utiyama, and we were very interested to see that they had done essentially the same thing in cutting off the cross section at high energies.

I have sent you a few reprints of our papers and I hope you will give them out to anybody who wants them.

For the next academic year, I have been awarded a University Fellowship so I am staying here for another year.

Professor Oppenheimer and others here were very glad to hear about you, and we are all very interested in what you are doing. We hope you will get some result soon.

With best regards,

Yours respectfully,

*Shuichi Kusaka*
