DEPARTMENT OF PHYSICS

Professor Hideki Yukawa
Department of Physics
Kyoto Imperial University
Kyoto, Japan

Dear Professor Yukawa:

I want to thank you very much for sending me copies of your new journal "Progress of Theoretical Physics" which has been very interesting to me. I am trying to arrange for regular subscription for our Physics Department through the University library.

Work on cosmic radiation and fundamental particle physics has been interrupted at Duke University for several years, and has been resumed only recently. In consequence there have been no new papers in these fields since 1941, but we will send you any new papers that may appear in the future.

I was happy to see the evidence of the new scientific activity in your country, and I hope that the international exchange of scientific ideas will prove as fruitful as it has been in the past. If I can help in any way in this respect, please let me know.

Very sincerely yours,

L. W. Nordheim
