HARVARD UNIVERSITY

DEPARTMENT OF PHYSICS

JEFFERSON PHYSICAL LABORATORY
CAMBRIDGE 38, MASSACHUSETTS

April 3, 1948

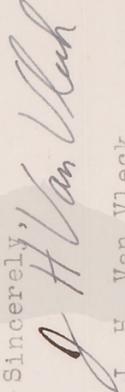

Professor H. Yukawa
Faculty of Science
Kyoto University
Kyoto, Japan

Dear Professor Yukawa:

This note is simply to thank you for sending me the various copies of "Progress of Theoretical Physics". I showed them to some of my colleagues who are in the nuclear field. They will be placed in our library. Under separate cover, we sent you a while ago some reprints of the recent publications of this laboratory. I trust that they reached you safely.

I always feel very contrite when I think of the destruction of the cyclotron. This seemed to me a very stupid move and many of my colleagues feel the same way.

Sincerely,

J. H. Van Vleck
Chairman
Department of Physics

JHVV:mcc
