Professor H. Yukawa
Physics Department
Kyoto University
Kyoto, Japan

Dear Professor Yukawa:

Thank you very much for the issues of the journal: "Progress of Theoretical Physics" which you have been sending me (note my new address: I have found them extremely interesting and have been studying them carefully).

I hope that you, together with other members of your group, will find it possible to visit the United States in the near future, and that our people here will be able to make your acquaintance.

With best regards

Sincerely yours,
Henry Primakoff
Henry Primakoff

P.S. I am enclosing several reprints of recent work.
