DEPARTMENT OF PHYSICS

June 18, 1948

Professor Hideki Yukawa  
Department of Physics  
University of Kyoto  
Kyoto, Japan

Dear Professor Yukawa:

Professor Oppenheimer has informed me that I should write to you personally about being placed on the mailing list for your very excellent journal "Progress of Theoretical Physics". While I was at the Institute for Advanced Study in Princeton last spring, I enjoyed reading Professor Oppenheimer's copies of the journal which you sent him. When I returned to the University of Rochester, I tried to obtain the "Progress of Theoretical Physics" through regular channels but found that this was impossible. Since we have an active theoretical group at Rochester, it would be very helpful to have a copy of your journal available here. I would appreciate it very much if you would therefore place me on your mailing list (for current numbers and past issues if possible) and send the bill to me personally. If normal financial transactions are excluded, we shall be happy to send you in exchange copies of some American journal.

I am sending under separate cover some reprints of papers of mine on meson theory.

Sincerely yours,

*R. S. Marshak*
