Professor H. Yukawa
Faculty of Science
Kyoto Imperial University
Kyoto, Japan

Dear Professor Yukawa:

Thank you very much for sending me the issue of "Progress of Theoretical Physics," which I recently requested. While I am very glad to have this issue, I find that the paper that I was after is not in Volume I, No. 3, which was the issue I requested and the one you sent to me.

I am explicitly interested in a paper by S. Tomonaga on quantum electrodynamics, and I believe now that this paper appears in Volume I, No. 2. I should appreciate it very much if you could send me this issue, and I should, of course, be glad to reimburse you for its cost.

Sincerely yours,

L. I. Schiff
