Dear Professor Lawrence:

I am very grateful for your kind letter. It is indeed my great pleasure to have the opportunity of discussing with you about new facts on mesons discovered in your laboratory. As already reported to you from Dr. Kelly of GHQ, SCAP, I and Mrs. Yukawa shall arrive at San Francisco by Pan American Air Line at 7.30 AM, Sept. 3. We want to stay with you three or four days before starting to the East. In case that we can expect to see Dr. C. Anderson at Cal. Tech. we shall prefer to stop at Los Angeles on our way to the East.

Thanking very much for your kindness,

Yours very sincerely

Hideki Yukawa.
