

# Call for International Molecule-type Workshops

Yukawa Institute for Theoretical Physics (YITP), Kyoto University, calls the proposals of international molecule-type workshops under the Yukawa International Program for Quark-Hadron Sciences (YIPQS). An international molecule-type workshop is a shorter (2-4 weeks) workshop with, a few core participants as well as regular participants. Intensive collaboration is expected.

## 1. Requirements

Molecule-type workshops are a program to promote scientific exchanges and collaborations, and YITP requires the following conditions for each molecule-type workshop.

A. Upper limit of the total budget is 1,000,000 yen.

B. The length of workshop must be two weeks or more.

C. The number of invited participants must be two or more. At least one of the "core" participants have to be invited from abroad and stay at YITP for two weeks or more.

## 2. Documents to be submitted

- International molecule-type workshop proposal application form.

- In the case when there will be a participant who plans to stay one month or more, please submit a letter stating the reason of a longer stay and a research plan (with a rough schedule) with 80 words or more.

- PDF file of a related paper (if any).

## 3. Organizers

Organizers should include, at least, a faculty member of the Yukawa Institute.

## 4. Applications

Submit the above items (see 2.) via E-mail to `yitp_apply {AT} yukawa.kyoto-u.ac.jp` (Replace {AT} with @).

You can download the application form from the YIPQS homepage (\*1).

(\*1 <http://www2.yukawa.kyoto-u.ac.jp/~yipqs/call-e.html>)

You will receive the acknowledgement from the secretary office within two weeks. If not, please send an E-mail to `yitp-mol {AT} yukawa.kyoto-u.ac.jp` .

## 5. Deadline

Specified in the YIPQS homepage.

## 6. Screening and approval

Applications are screened by the YIPQS executive committee and the YITP program advisory committee. The result will be informed via E-mail.

## 7. Workshop report

The organizers must submit a report within a month after the end of the workshop. A workshop report should include the program, list of the participants, and achievements of the workshop (approximately 2 pages in A4 or US letter paper).

## **International Molecule-type Workshop: Application Form**

- 1) Research Subject
  
- 2) Period: From YYYY/MM/DD through YYYY/MM/DD  
Number of participants:
- 3) Budget  
Total budget (in yen):  
Breakdown:  
E.g. Albert Einstein Airfare 200,000 yen, Hotel expenses 10,000 yen x 14 days  
Hideki Yukawa Fare 26,000 yen, Hotel 10,000 yen x 10 days.
- 4) Organizers
  1. Research conductor  
Name:  
Affiliation:  
Position:  
Short CV (after graduation):  
  
E-mail:  
Phone/Fax:
  2. Core participant(s)  
Name:  
Affiliation:  
Position:  
Short CV (after graduation):  
  
E-mail:  
Phone/Fax:
  3. Contact person in Yukawa Institute
- 5) Research Plan (80 words or more)
  
  
  
  
  
  
  
  
  
  
  
- 6) Reason of long period (in the case if the workshop period is one month or more. Describe the reason with 80 words or more.)
  
  
  
  
  
  
  
  
  
  
  
- 7) Related paper to the workshop (if any)

Date: YYYY/MM/DD

## **International Molecule-type Workshop: Report**

**Research Subject:**

**List of Participants (Affiliation, Period of stay):**

**(Example)**

1. Albert Einstein (ETH, Sep.10-24, 2011)
2. Hideki Yukawa (YITP, Sep.10-14, 2011)
3. ...

**Reporter:**

**Affiliation (University/Institute, department)**

**Position:**

**E-mail:**

**Achievements in the workshop (You can add sheets if necessary.):**
